How do I find Key News?

TOP NAVIGATION

Finding this content couldn't be easier! Just visit Warhammer-Community.com and click on the menu at the top right of the screen (as you can see here).

You'll then be able to select your language – which will load all your translated content in one place for you to enjoy.

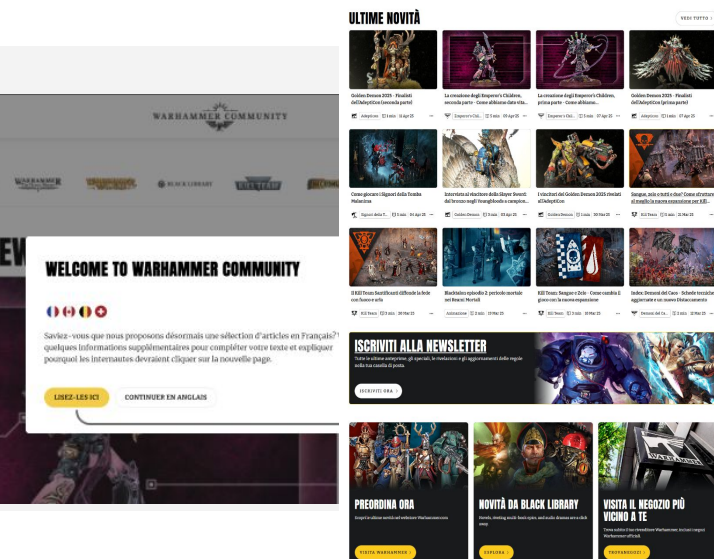

THE HOMEPAGE

You can also access the articles by using these handy little language selector tabs, nestled below the Warhammer game logos.

ARTICLES

If an article is available in other languages, a dropdown menu will appear on the right-hand side of the page, so you can select your chosen language.

AND JUST IN CASE!

We really don't want anyone to miss out, so if you visit the Warhammer Community site and your browser detects your language settings aren't English by default, a pop-up should appear, inviting you to view a homepage populated with articles written in your chosen language.
